INTRODUCTION

This is the fourth comprehensive decennial **Census of Merchandising and Service Businesses** taken in Canada. The census covers all known retail and wholesale places of business and most service enterprises. Services not included are broadly those relating to education, health and welfare, religion, professions, finance and trade and labour associations. Retail trade covers recognized stores although supplemental data on other avenues of consumer buying, such as direct selling (house to house), direct mail, etc., will be shown in Bulletin 6.1-8. Wholesale trade in general covers establishments selling merchandise to others for resale and to industrial and commercial users. At the time of the census, in June 1961, the enumerators listed all retail, wholesale and service businesses as required. After checking with various other sources, such as trade association lists, etc., appropriate questionnaires were mailed early in 1962 to cover the complete 1961 business year.

Classification changes

Under a recent revision to the Standard Industrial Classification, certain trades have been moved from one field to another. The 1961 Census results include the following changes as compared to previous censuses:

Restaurants, caterers, cocktail lounges, taverns, dress-makers—from retail to service.

Lumber and building material dealers, farm implement dealers, feed stores, farm supply stores, harness shops—from retail to wholesale.

Automotive repair shops (several kinds), radio and TV repair shops, jewellery repair and engraving, bicycle repair—from service to retail.

Dental laboratories, electro-plating, machine shops, upholstery shops—from service to manufacturing.

Definitions

Statistics on merchandising and service businesses are presented under two concepts—location and establishment. Location statistics show every separate place of business in its own classification, while establishment statistics¹ include the accounting entity according to the major activity. For example, a firm operating a wholesale and a retail hardware business from two separate locations would be classified in its entirety as a wholesale hardware establishment if the wholesale operations predominated; for location statistics, the retail store would be classed as and included with retail trade, the wholesale location with wholesale trade. A business location may be within the scope of the census, but the establishment of which the location is a part may not be within scope.

Kind of business classifications for wholesale trade will be found in Bulletin 6.2-6; service trades in Bulletin 6.2-13; and retail trade in Bulletin 6.1-8.

Maps for provinces by county or census division and for metropolitan and major urban cities may be obtained by ordering Census Bulletin 1.1-9. Maps showing census tracts of metropolitan cities will be included in the special reports for retail trade and for service trades by census tracts.

Copies of the basic questionnaires used for the 1961 Census are shown in the introductory bulletins—6.1-8 retail; 6.2-6 wholesale; and 6.2-13 service.

¹ This bulletin contains information on establishments showing, first, principal statistics of all retail establishments. Other tables in this bulletin were derived from panels of establishments which could or would report the required detail. Except for Table 17, the results may have some bias toward large-firm characteristics since small businesses were not required to complete all of the data, i.e., weekly employment and pay, gross profit margin, etc. Data on proprietors and unpaid workers shown in Table 19 pertain to unincorporated businesses.

Le présent **Recensement des entreprises de commerce et de service** est le quatrième recensement décennal complet de cette nature effectué au Canada. Il embrasse toutes les maisons connues de commerce de détail et de gros et la plupart des entreprises de service. Les services qui ne sont pas inclus sont ceux, en général, qui ont trait à l'enseignement, à la santé et au bien-être, au culte, aux professions libérales, aux finances et aux associations commerciales et ouvrières. Le commerce de détail couvre les magasins reconnus mais des données supplémentaires sur d'autres facilités d'achat offertes au consommateur telles que la vente directe (de porte à porte), la vente directe par la poste, etc., paraîtront dans le bulletin 6.1-8. En général, le commerce de gros comprend les établissements qui vendent de la marchandise à autrui pour la revente et aux consommateurs industriels et commerciaux. Lors du recensement, en juin 1961, les agents recenseurs ont dressé la liste de toutes les entreprises de détail, de gros et de service visées. Après vérification à diverses autres sources telles que les listes d'associations commerciales, etc., des questionnaires s'appliquant à l'année commerciale entière de 1961 ont été expédiés par la poste au début de 1962.

Modifications apportées à la classification

À la suite d'une récente révision de la Classification type des industries, certains commerces ont été transférés d'une catégorie à une autre. Au regard des recensements antérieurs, les résultats du recensement de 1961 comprennent les changements suivants:

Restaurants, traiteurs, salons-bar, tavernes, couturières—du détail aux services.

Marchands de bois d'oeuvre et de matériaux de construction, marchands d'instruments agricoles, magasins d'aliments pour animaux, magasins de fournitures agricoles, magasins de harnais—du détail au gros.

Ateliers de réparation d'automobiles (diverses sortes), ateliers de réparation d'appareils récepteurs de radio et de télévision, réparation de bijouterie et gravure, réparation de bicyclettes—des services au détail.

Laboratoires dentaires, galvanoplastie, ateliers d'usinage, ateliers de rembourrage—des services à la fabrication.

Définitions

La statistique des entreprises de commerce et de service est fondée sur deux concepts—le local d'affaires et l'établissement. La statistique du local d'affaires situe chaque maison de commerce dans sa propre catégorie, tandis que la statistique de l'établissement¹ comprend l'entité comptable fondée sur l'activité principale. Par exemple, une firme qui exploite un commerce de ferronnerie en gros et en détail à deux endroits différents sera classée en entier comme établissement de ferronnerie en gros si son commerce de gros y prédomine. Quant à la statistique du local d'affaires, le magasin de détail sera classé comme commerce de détail et le local d'affaires en gros, comme commerce de gros. Un local d'affaires peut s'inscrire dans le cadre du recensement mais l'établissement dont le local d'affaires est une partie peut ne pas s'y inscrire.

On trouvera les classements suivant le genre de commerce dans les bulletins 6.2-6 (commerce de gros); 6.2-13 (entreprises de service); et 6.1-8 (commerce de détail).

On obtiendra des cartes des provinces par comté ou division de recensement et des villes métropolitaines et grandes agglomérations urbaines en commandant le bulletin de recensement 1.1-9. Des cartes indiquant les secteurs de recensement des villes métropolitaines seront incluses dans les rapports spéciaux sur le commerce de détail et les entreprises de service par secteur de recensement.

Des reproductions des questionnaires de base utilisés lors du recensement de 1961 paraissent dans les bulletins introductifs—6.1-8 détail; 6.2-6 gros; et 6.2-13 services.

¹ Le présent bulletin contient des renseignements touchant les établissements qui déclarent, en premier lieu, la statistique principale de tous les établissements de détail. D'autres tableaux ont été tirés de listes d'établissements qui étaient en mesure de fournir les détails nécessaires ou qui ont consenti à les fournir. Sauf dans le cas du tableau 17, les résultats peuvent pencher vers les caractéristiques de grands établissements vu que les petits établissements n'ont pas été tenus de répondre à toutes les questions, comme celles, par exemple, qui ont trait à l'emploi et la paie hebdomadaires, la marge de bénéfice brut, etc. Les renseignements à l'égard des propriétaires et des travailleurs non rémunérés figurant au tableau 19 sont ceux des entreprises commerciales non constituées.
